

The three elements of a fire include:

➡ **HEAT** (Friction, Spark, Flame)

➡ **OXYGEN**

➡ **FUEL** (Wood, Paper, Gasoline)

EXTINGUISHERS remove Oxygen from the equation

Remember **PASS**:

Pull the pin

Aim at the base of the fire

Squeeze the handle

Sweep from side to side.

Keep your back to a safe escape route.

Only trained employees may use extinguishers.

Do not attempt to extinguish any fire larger than a small trash can fire. (“Incipient Stage”)

When in doubt, Call 911

Know your extinguisher:

A Ash (Wood, Paper)

B Boil (Oil, Gasoline)

C Current (Electrical)

D Metal (Batteries, Dust)
